

## FillRgn

The **FillRgn** function fills a region by using the specified brush.

```
BOOL FillRgn(  
    HDC  hdc,           // handle of device context  
    HRGN hrgn,         // handle of region to be filled  
    HBRUSH hbr        // handle of brush used to fill the region  
);
```

### Parameters

*hdc*

Identifies the device context.

*hrgn*

Identifies the region to be filled. The region's coordinates are presumed to be in logical units.

*hbr*

Identifies the brush to be used to fill the region.

### Return Value

If the function succeeds, the return value is TRUE.

If the function fails, the return value is FALSE.
